

# Eastlake

# Eastlake

## *Introduction*

Our Eastlake suite was first made by Lockwood Company around 1885. Each piece features a potted plant, some with broken leaf stems and some with stems intact. Each piece is cast in bronze and finished by hand using the same techniques of over a century ago. The relief is japanned to set off the detailing. Noteworthy is that the doorknobs have detailing on the reverse side. The unlacquered bronze will acquire a warm statuary patina with time. This series is compatible with tubular latches and traditional mortise locks.
