

# Unsuited Fine Bronzes

# Unsuited Fine Bronzes

## *Introduction*

All of our decorative bronze hardware pieces are made from antique originals. We remade the moulds and reproduce each piece using the same bronze content and techniques of over a century ago. The finish is an un-lacquered polished bronze. With time it will age to a statuary patina. This section offers decorative bronze hardware that is not a part of a pattern. Doorknobs, rosettes, and back plates are offered separately. When pairing these together check that the diameter of the doorknob ferrule will fit into the plate or rosette. These pieces were originally made by different manufacturers and will vary in size. We have paired various pieces as guides.
